sophocles antigone is an ancient play that speaks directly to contemporary issues from conflicts between authoritarian regimes and those who protest them to struggles over racial and gender discrimination students and general readers will find a touchstone in this classic work the central questions of the play continue to resonate what is the nature of justice what is the place of civil disobedience in civil society what is the proper exercise of power for those in authority this edition provides a readable new translation of antigone along with helpful annotations a comprehensive introduction to the play and a general introduction to ancient greek theatre

disregard for messages from the oracles and gods doesn't turn out well for characters in greek stories and oedipus is no exception encompassing murder and betrayal incest and patricide this set of three plays follows the life of a man doomed to suffer from birth sophocles wrote these classic greek tragedies in fifth century bce this english translation by f storr was first published in 1912

data is not about number crunching it's about ideas and when used properly read ethically it is the problem solver of our time yet many savvy people seem to be in data denial they don't think they need to understand data or it's too complicated or worse using it is somehow unethical yet as data and ai just an accelerated way to put data to work move to the center of professional and civic life every professional and citizen needs to harness this power in the little book of data each chapter illustrates one of the core principles of solving problems with data by featuring an expert who has solved a big problem with data from the entrepreneur creating a loneliness score to the epidemiologist trying to save lives by finding disease hotspots the stories are told in a fast moving vivid sometimes comic style and cover a wide frame of reference from adtech to climate tech the bubonic plague tiny submarines genomics railroads bond ratings and meat grading that's right meat along the way evans injects lessons from his own career journey and offers practical thought starters for readers to apply to their own organizations by reading the little book of data you will achieve the fluency to apply your data superpowers

to your own mission and challenges and you will have fun along the way you will be in other words a data person

how to read a play outlines the crucial work required for a play before the first rehearsal the first group reading or even the before the cast have met directors and dramaturgs must know how to analyze understand and interpret a play or performance text if they hope to bring it to life on the stage this book provides a broad range of tools and methods that can be used when reading a text including lessons from the past what can we learn from aristotle stanislavsky meyerhold vakhtangov brecht and harold clurman this section establishes the models and methods that underpin much of a director's work today a survey of current practices in western theatre a combination of research interviews and observation of practical work addresses the main stages in understanding a play such as getting to know characters sharing ideas mapping the action and grappling with language a workbook setting out twenty one ways of breaking down a play from the general to the particular contributions reflections and interjections from a host of successful directors make this the ideal starting point for anyone who wants to direct a play or even devise one of their own this wide range of different approaches options and techniques allows each reader to create their own brand of play analysis

language and literature teaching are a keystone in the age of stem especially when dealing with minority communities practical methodologies for language learning are essential for bridging the cultural gap teaching language and literature on and off canon is a critical research publication that provides a multidisciplinary multimodal and heterogeneous perspectives on the applications of language learning and teaching practices for commonly studied languages such as spanish english and french and less studied languages such as latin gaelic and ancient semitic languages highlighting topics such as language acquisition artistic literature and minority languages this book is essential for language teachers linguists academicians curriculum designers policymakers administrators researchers and students

this volume presents a survey of the reception of greek myths including antigone medea the trojan cycle and alcestis in brazilian literature and stage performance the collection addresses the work of many innovative authors some of them great names of brazilian literature such as jorge andrade and nelson rodrigues who are influential in this specific area of classical reception and well known by modern audiences this unique volume is the product of collaboration of many scholars with different affiliations under the coordination of the federal university of rio de janeiro and the federal university of minas gerais belo horizonte two of the most prestigious universities in brazil for the study of classical and reception studies

society and education explores the relation of society to education in europe as well as its comparative perspective towards overseas societies and their institutions it is an enquiry into the social historical institution of education and cross cultural studies in europe elaborating on the castoriadian ontology the book delves into the magma of social imaginary significations that characterise and associate pivotal epochs of the continent's history classical greece and modernity and exemplifies their incarnation in educational systems and in the formation of the european and in general the western comparative gaze with a particular focus on our epoch postmodernity and globalisation the study traces the pervasive dominance of capitalist significations in social institutions forms and activities as well as in education and the way it is compared across countries nevertheless as moutsios suggests the european tradition notwithstanding its ideological usage by much of social sciences contains an indissoluble critical and self reflective dimension which needs to be sustained and advanced in education and its cross cultural comparison perhaps more than ever before the book demonstrates the embeddedness of education in its cultural context and should therefore be of great interest to academics researchers and postgraduate students who are

involved with comparative education the sociology and history of education education policy and european studies
